

# MICHIGAN "FINE" WINES & "FUZZY" PEACHES

## AUGUST 21, 2012

Let's go to Buchanan, MI to the Tabor Hill Winery. The Tabor Hill Difference... Lake Michigan Shore's Wine country is one of the finest wine-producing areas in the world. The climate and site, like those of France and Germany, are perfect, with cool temperate breezes, sandy clay soil and one of the highest vineyard sites in the Midwest. We'll tour the winery to learn how our many fine wines are made. We are also invited to visit the tasting rooms to sample their award-winning wines. The friendly wine consultants will welcome you and answer all of your questions and guide you through a tasting tour of their selections, from their most recent releases, to their classic favorites including sparkling wines and non-alcoholic juices. Lunch will be at the Boulevard Inn & Bistro on Lake Michigan. Then a drive around town to see the Pirates and Dolphin Figures. The afternoon a visit to the Lemon Creek Winery and Fruit Farm at Berrien Springs, MI. Lemon Creek is a name with over 150 years of grape and fruit growing experience. Enjoy wine tasting in their newly remodeled tasting room. There is sure to be a wine for any palate. Step outside with a glass of wine in hand and wander over to the fruit market where you can find any number of fruits seasonally. Want to experience the countryside a little more? Grab a basket and take a wagon ride into the orchard where you can pick your own fruit right off the vine or tree. What a day!!
